

Dear valued customer,

PPT UK is a responsible company that takes note of certain situations that occur outside of our control, notably the current crisis in Ukraine that brings with it a degree of uncertainty in the supply Chain.

It is important to note that PPT UK is a UK company with manufacturing sites in Halifax, West Yorkshire, and Slinfold, West Sussex, and many of our raw materials are sourced from domestic suppliers.

PPT UK do not buy any raw materials or source any finished goods directly from either Russia or Ukraine.

For all supply of raw materials we continue to work closely with our network of suppliers to ensure that their material is not being supplied from Russia, either directly or indirectly, and this is monitored on a regular basis.

Sincerely,

Paul Braddock
Group Head of Purchasing and Planning
